Print cartridge 18c0781, Friendly Price

Posted in **Lexmark Ink Cartridges** by writer2 on the December 24th, 2009

Printer is quite sensitive with its component. It doesn't like using unoriginal cartridge because it can cause some trouble in its performance. For example is **Lexmark jet printer 3100**.

We cannot use **18c0781 ink** for this printer because it is only compatible with Lexmark 15M0120 ink. But it still can use the remanufacture product which is much friendlier for the pocket. 123Inkjets.com has produced some of the remanufacture ink cartridge including **print cartridge 18c0781** and 15M0120 ink which cost for \$20.99 which are guaranteed to give 100% beautiful color when it is used to print images.

Lexmark 18c0781 ink cartridge, Best Price Ever

Posted in **Lexmark Ink Cartridges** by writer2 on the December 22nd, 2009

Sometimes, a printer will not be able to work well if we don't use the original cartridge as its main component. But there is also printer which can work extraordinarily even if it uses a remanufacture cartridge, for example is Lexmark X3470 and Lexmark Z735.

Both printers as well as the other X and Z Lexmark series are compatible with the remanufacture **Lexmark 18c0781 ink cartridge**. The price for this **compatible Lexmark ink** is also very affordable, only \$18.99 for each. Additional discount for about \$3.00 is

Cartridge for c6578dn, Special Price

Posted in [HP Cartidge ink](#) by writer2 on the December 19th, 2009

HP Inkjet Ink Color Copier 290 is nonetheless the best one for colorful printing. The only problem is there is no cheap cartridge available for this type of printer.

Thankfully, 123Inkjets.com which is very dedicated to its customers is willing to give us the original **cartridge for c6578dn** with very affordable price. The genuine cartridge **c6578dn ink** with tri-color is only sold at \$39.99 on this online store. Plus there is other **inkjet ink cartridge** with special price for about \$9.00 if we buy 3-4 of them and it means we can save for about \$9.95.

Officejet 6110 ink for Sale

Posted in [HP Cartidge ink](#) by writer2 on the December 17th, 2009

HP products are having a good quality actually. The only weakness of the products is they need to use the original equipments from the same manufacturer that they can work well.

I have an HP OfficeJet printer which series is 6110xi. This printer will only work if I use the original **officejet 6110 ink**. If I don't use the original one, the result will be very worst. **Hp print cartridges** are not very affordable actually. But there is 123Inkjets.com which is willing to give us genuine blank ink for only \$25.99 and this discount is also available for **6110 toner** which we really need to clean the unwanted ink on the paper.

Epson cx3810 ink cartridge, Special Discount

Some printers, such as Brother DCP-120c and Brother Intellifax-1840c, are very good for printing. But these printers are quite ink-consuming and it is not good for our pocket.

Epson cx3810 ink cartridge is usually used for those types of printer. And the original cartridges are very expensive. Moreover there is not much **discount Epson ink** available in the store and this makes us feel sufferer to pay for \$24.99 per each. But then 123Inkjets.com is coming and bringing us the remanufacture cartridge which has the same quality yet much more affordable. Discount for the genuine one is also available that we only need to pay for \$22.99.

Epson 950 ink cartridge, Much More Affordable

Posted in [Epson Printer Ink](#) by writer2 on the December 12th, 2009

My printer is Epson Stylus photo printer which series is Stylus Photo 950. This printer is the most precious printer of mind. But it makes sad when the ink is running.

As you have already known, **Epson 950 ink cartridge** is cost quite much for my pocket and I am a student which has no much pocket money either. But then I feel relieve because I find 123Inkjets.com. This website is the one that I seek since a long time ago because it is able to give me **printer ink cartridge** with so much affordable price. I even buy 14-piece bulk set of cartridges with black, cyan, yellow, and magenta colors in the set. And it is only cost me for \$79.99.

Stylus cx7400 ink, Light for Pocket

Posted in [Epson Printer Ink](#) by writer2 on the December 10th, 2009

I have a Brother MFC 420CN printer. I love this printer because it has great performance in printing. Unfortunately, the ink inside the cartridge is running and I need some supply to replace it.

Since the genuine **cx7400 ink cartridges** is quite unbelievable for my pocket, then I choose to buy the remanufactured one. The black ink that I buy is the **stylus cx7400 ink** which has the same quality yet better for my pocket. I buy it at 123Inkjets.com for only \$4.99. It is a lot cheaper since in the store it is cost for \$7.99.

Brother mfc 420cn ink, Set of Wonderful Price

Posted in **Brother Ink Cartridges** by writer2 on the December 8th, 2009

Yesterday is the worst day in my life. I've got a deadline and the printer didn't work. When I checked it, the cartridge is empty.

I feel really terrible because **genuine brother ink** that I need for my printer, which is intellifax 1840C, is quite expensive. But then, I find 123Inkjets.com which is able to give me the cyan **brother mfc 420cn ink** for only \$4.99. Even there is a bulk set of the ink which consists of 10 compatible cartridges and it is only cost for \$39.99. What an amazing price, isn't it?

Mfc 210c ink cartridge, Discount for Original

Posted in **Brother Ink Cartridges** by writer2 on the December 6th, 2009

When the cartridge is ruined, the printer is really useless. And there is nothing more annoying than the useless printer, especially when we are in the limit of the deadline.

Brother printer cartridge is unusually expensive in the store, especially the one which is compatible with my DCP-110C printer. The price for one **mfc 210c ink cartridge** can reach \$7.99 and it annoys me the most. But then I find 123Inkjets.com which sells this cartridge for only \$4.99 per each. I even get a discount for about \$3.00 when I buy three cartridges from them.

Lc61 ink cartridges, One Price for All

Posted in **Brother Ink Cartridges** by writer2 on the December 4th, 2009

Printer is highly needed by us nowadays since we work mostly with the computer. But, there is something annoying with the printer. It is about the cartridges. Printer cartridge tends to be leaked out easily that we cannot use for a long time.

For example are ink cartridges which are used in Brother-DCP Series printer and Brother-MFC Multifunction Printer. The **original brother ink** cartridges are usually sold for about \$8.99 up to \$15.49 in the store. But **original brother ink cartridges** are only sold for \$4.79 at 123Inkjets.com. There is even 10-piece bulk set of **compatible brother ink** with various color for only \$39.99.
